

Music and Movement Seminar

World | Olympic | National Level Choreographer

MARK PILLAY

**With Olympian Larkyn Austman and Music
Extraordinaire Gordon Cobb, PhD**

October 6th and 7th in Kamloops BC

Mark has been involved in choreography since 2002. In this short time Mark has quickly made a name for himself becoming a sought after choreographer in much of Canada, the United States and Europe. Mark has an exceptional gift at using his education, dance history and performance experience to create memorable programs for figure skaters. His rapport, humour and communication skills seem to put skaters at ease, which fosters a safe environment for skaters to push both their movement and performance abilities.

Larkyn won bronze at the 2018 Canadian Championships, and the next day was named to the 2018 Olympic team and the 2018 World team. Training out of Coquitlam Skating Club, Mark has choreographed many of her programs which all became crowd pleasers and helped put her in the spotlight. Larkyn is a spit fire on ice and her passion for the sport really shines with every performance she does.

This 2-day seminar is filled with on and off ice activity all to do with the artistry of skating. Mark Pillay and Larkyn Austman's high energy and passion will inspire you and grow and step up your skating in your program components, step sequences, transitions, body movement, musicality and much more.

Gordon Cobb, PhD Master of Music, will teach you everything you need to know about the music process and how to understand it better to create a masterpiece for your programs and future skating. His fun and interactive presentation is suited for all age's and levels of skaters and really helps tie in the on and off ice portion of the seminar together.
